SUMMARY

Aspiring Full Stack Developer with hands-on experience in building responsive, user-friendly web applications using the MERN stack. Skilled in frontend development with HTML, CSS, Tailwind CSS, and JavaScript, and backend development with Node.js and Express.js, with database management using MySQL and MongoDB. Currently pursuing a bachelor's in software engineering at MUET, with practical project experience ranging from portal clones to real-time applications. Passionate about writing clean, scalable code and delivering impactful digital solutions

SKILLS

HTML • CSS • JavaScript • React.js • Java • SQL • React • Tailwind CSS • Python • Team Collaboration • Problem Solving

WORK EXPERIENCE

React Developer | (Project Based)

2025-04 – 2025-04

Devtown | India (Remote)

- Developed an IPL Live Score Tracker using React and Tailwind CSS under Devtown mentorship.
- Implemented real-time score updates with a fully responsive and mobile-friendly UI.
- Strengthened skills in React components, props, and state management through hands-on learning.

Frontend Developer Internship

2025-02 – 2025-03

Code Alpha Internship | India

- Built a complete Airbnb Clone with full rental functionality including property listings, search, and booking.
- Integrated a database to manage rental records, user data, and property information.
- Delivered a responsive and clean UI ensuring smooth user experience across all devices.

PROJECTS

ApnaTube – Video Streaming Platform

2025-09 – 2026-10

Technologies: React.js | JavaScript | Tailwind CSS | Express.js | MongoDB | Cloudinary

- Built a fully functional video platform similar to YouTube from scratch using the MERN stack.
- Integrated YouTube Data API for real-time video fetching, live search results, and channel details.
- Implemented responsive UI, video playback, and dynamic routing using React and React Router.
- Managed backend APIs using Node.js and Express with MongoDB for data storage.

STUDENTS ALUMNI COUNCIL

2026-04 – Present

Technologies: React.js | JavaScript | Tailwind CSS | Express.js | MongoDB

- Built a platform to connect NJV college alumni and manage their community online
- Implemented alumni profiles, directory listing, and event management features.
- Built a responsive and clean UI using React and Tailwind CSS.

AIR BNB COMPLETE RENTEL SYSTEM

2025-09 – 2026-10

Technologies: HTML, CSS, JavaScript, MongoDB, Cloudinary

- Built a complete full-stack Airbnb-inspired rental platform with property listings, search, and booking functionality
- Integrated MongoDB database to manage rental records, user profiles, and property information
- Delivered a fully responsive and clean UI ensuring smooth user experience across all devices

EDUCATION

Bachelor's in Software Engineering

2022-12 – Present

Mehran University of Engineering and Technology, Jamshoro

Studying core courses related to software engineering, such as Data Structures, Web Development, Databases, Object-Oriented Programming, Java Programming, Software Project Management, Human-Computer Interaction, and Artificial Intelligence, with practical project work

F.SC PRE-ENGINEERING

2020-04 – 2022-04

NJV GOVT COLLEGE

Completed an intermediate in pre-engineering, which built a strong foundation for pursuing software engineering at the university level.

CERTIFICATIONS

- FRONTEND DEVELOPMENT** – SIMPLILEARN (2025-04)
- REACT JS** – SIMPLILEARN (2025-04)
- DATA ANALYTICS AND BUSINESS INTELLIGENCE** – DIGISKILLS (2025-08)
- GITH & GITHUB** – DATACAMP (2025-07)
